

AWARDING YOUR PROJECT

Awarding your solicitation in PennBid is a streamlined, straightforward process that allows you to choose the manner and extent of items you are awarding, ending the bid management phase of your project.

Selection Methods

The process of awarding bids begins within the ANALYSIS screen of your project, on the “**BID FORM – PRICING**” sub-tab.

The screenshot displays the ANALYSIS screen with the following elements:

- Navigation tabs: SETUP, CLARIFICATIONS (FROM VENDORS), RESPONSE, ANALYSIS (highlighted), AWARD, LOG.
- Sub-tabs: BID FORM- QUESTIONS (RFI) and BID FORM- PRICING (selected, indicated by a red arrow).
- SELECT VIEW: Cross Tab View
- SELECT CROSSTAB: Extended Price
- SELECT AWARD SCENARIO: Please choose one
- SHOW/HIDE AGGREGATIONS: Average Std Deviation
- AWARD SELECTED: Selection Total: \$0.00
- Buttons: Award Lump Sum, Award Selected Items, Fullscreen, Export
- TYPE: Base Option Alternate
- SHOW/HIDE COLUMNS: Extended Pricing

On the drop-down menu under “Select Award Scenario,” choose the desired award scenario. The “Lowest Price Single Award” option will automatically select the bidder whose total pricing is lowest, with the selected award value shown in the “Award Selected” box. Selecting the “Lowest Price Split Award” option will automatically pick the lowest price for each line item, typically resulting in more than one selected bidder. This option is often used for commodity purchases, such as materials, chemicals, or similar.

When you are satisfied with the selected items, in the “Award Selected” box, click either the “Award Lump Sum” button, which simply includes the total price submitted, or the “Award Selected Items” button, which shows all line items selected and prompts you to confirm this action. If the award scenario is correct, click “Confirm” to delete any previous award information and continue. A summary of the line items, along with unit pricing and totals, will display. If the total award is correct, click the “Save” button.

Clicking “Save” will automatically transfer you to the **AWARD** tab. Now you can review, edit, and finalize award information, including assigning the Award Date and choosing to publish the Bid Results publicly. Note that the system will auto-populate the date based on the date you are executing these steps within your project.

Occasionally, you may find the need to edit either the quantities or unit pricing associated with certain line items to accurately reflect what an agency is awarding. By hovering your mouse over any line, you will see a pencil, or “editing” icon appear. Clicking on this will open that line for editing, allowing you to adjust the Quantity or Unit Price as appropriate. Once you finish updating, click “Save.”

The screenshot displays the 'Line Item Award' dialog box. The dialog contains the following information:

REFERENCE NUMBER	DESCRIPTION	EXTENDED ESTIMATE
2	MAINTENANCE AND PROTECTION OF TRAFFIC	
NAME	UNIT OF MEASURE	EXT PRICE VARIANCE
	LS	
TYPE	UNIT PRICE ESTIMATE

Red arrows in the image point to the 'Save' button, the 'Quantity' field, and the 'Unit Price' field.

Note that this will not edit the bid information submitted by the bidder, only what is being awarded. All original pricing submitted by a bidder is retained. Once you are done verifying your preferences, the awarding process is complete.

Should it be necessary to withdraw the award, simply click the “Withdraw Award” button. You can always repeat the awarding steps as appropriate.
