

WHERE'S THE BID BOND?

Bid Bond – A document guaranteeing that the winning bidder will enter into a contract with the project owner, per the terms of the submitted bid.

Locating the Bid Bond in PennBid

If the bid bond feature was selected during the Setup process (Setup → Settings → Bid Bond Option → File Upload), sealed bids cannot be submitted by bidders without them satisfying the Bid Bond document upload requirement.

Once the project closes, open the solicitation (click **Bids** on the left tool bar, uncheck all status boxes, and select the project). Once the project is opened click the **Response** tab. After scrolling down, you'll see the bidders list, with the companies that submitted a bid at the top of the list.

Using the scroll bar, slide right and left to see if there is a column called "Bid Bond Document." Important Note: If the Bid Bond Document column is not visible, click the gear icon on the top right and turn "on" the bid bond column (There should not be a strike through the heading name). Once you enable that header, the bid bond for each company will appear in a new column. Simply click the document(s) to view, download and/or print.
