

MANAGING BID EVENTS

Bid Events – Meetings such as Pre-Bid Meetings, Site Visits, or similar, that occur during the bidding period.

Adding Events

To Add an event to your project, go to the [SETTINGS/SETUP](#) tab and scroll down to the “**BID EVENTS**” section (directly below the STATE/COUNTY and CATEGORIES selectors). Click on the “+” button to create a new event:

Note: You **do not** need to create events for Clarification Deadlines or Bid Due Dates, as they are managed by way of the primary settings for the project.

This will open the event management grid, where you can establish:

- The event TITLE
- LOCATION (Physical address if in person, or Web meeting link, if virtual)
- Event START/END Date & Time
- A DESCRIPTION or more details about the event
- If event is mandatory, click the box for ATTENDANCE REQUIRED TO BID

SEND ALERTS

Alerts

If desired, you can choose to have the system send a reminder for the event by clicking on the box next to “SEND ALERTS.” This will open the Alerts management grid, where you can choose the units (Hours or Days), and the number of hours or days prior.

You can select multiple reminders by comma delineating different values. You can also choose who receives reminders (Bid Contacts, Registered Attendees, or other specified email addresses).

When you have completed choosing your event details, click the SAVE icon (“✓”). The event will now show up in your project, and the event dates will auto-populate within your bid calendar. You can create as many events as desired.

Editing/Deleting Events

To edit or delete an event, simply hover your mouse over the desired event. Two icons will appear next to the TITLE column:

- To EDIT, click on the Pencil icon
- To DELETE, click on the Garbage Can

IMPORTANT: Excluding bidders from evaluation does not delete or edit their bid in any way. It simply removes their information from view when in the ANALYSIS tab. Their information can easily be reincorporated by reversing the above steps.
